

Brain Freeze

Alright children, we need you to pay attention because we have two important missions for you today. The skills needed for successful completion are the same you use to pay attention in class. You'll have to focus your vision and exercise your memory.

Eye Catcher! Mission #1 – Concrete Jungle

Oh no! The animals have escaped from the city zoo! We need a sharp-eyed zookeeper to spot the animals as fast as possible before they wreak havoc on the streets. Grab a marker and circle the animals that are on the loose:

2 Bears, 2 Cougars, Tiger, Zebra, Red Panda, Elephant, Gorilla, Chimpanzee, Spider monkey, Lion, Rhinoceros, Bat, Giraffe

Did you find them all within 2 minutes? If so, well done! Thanks to your great visual skills you have stopped the animals and saved the city! You are now ready for Mission #2! This time, all you need to do is to get one of your parents or friends involved and follow their instructions. One person will read the instructions and the other will follow them.
